

Crock Pot Cream of Mushroom Soup (#2)

Get ready for fall flavors with this easy to make, robust mushroom soup!

On the cusp of summer turning into fall, I'm already getting excited about the next season of recipes. I'm not a pumpkin spice anything, but I love pulling in the flavors of butternut squash, roasted root vegetables, and hearty seasonings.

Last night, I made a cream of mushroom soup just as a way of using up leftover vegetables that were starting to age in the refrigerator. I figured I would freeze some or share with friends, but it was certainly better than throwing things out. Turns out— this soup was a nice variety to my normal [Crock Pot Cream of Mushroom Soup](#)! With just a little change up of flavors and ratios, this soup was a little more hearty and robust.

As I wrote in the first mushroom soup recipe, this doesn't need to be an exact recipe with precise measurements. Also-

using a [hand blender](#) does give this soup a lovely smooth consistency. Try it and enjoy this soup as a transition to fall!

Crock Pot Cream of Mushroom Soup

Prep Time: 10 minutes

Cook Time: 6 hours

Serves: 8-10 people

1 lb fresh mushrooms (button, portobello or shiitake or a combination!)

4 stalks celery, cleaned and diced

1 large parsnip, peeled and diced

1/2 c. [caramelized onions](#)

3 cloves garlic

4 c. broth (chicken or vegetable)

1/2 teaspoon EACH: celery seed, salt, dried dill weed, black pepper

1 t. dried parsley

2 c. cold milk

2 T. corn starch

Put all ingredients EXCEPT milk and corn starch into crock pot and stir. Cook on high for 5 hours. Puree with hand blender. Dissolve corn starch into cold milk and add to crock pot and stir. Heat 1 additional hour on high and then serve.

Crock Pot Apple Butter Pork

Fork-tender meat and an amazing balance of flavor will leave everyone in your family asking for seconds!

I won't lie, tonight's dinner was fantastic. The perfect mix of textures and flavors. It was easy to make and quick to serve and might become a top 10 favorite very soon. I wasn't even offended when my kids put ketchup on the meat, because hey- they were on their second servings and not complaining!

I'm a big fan of pork country ribs but I feel like it's a complete misnomer. When I think about ribs, I think about meat falling off of a bone. But there isn't a bone in country ribs, it's just sections of meat cut into the shape of ribs and contains a wonderful balance of meat and fat (it tends to cook off, so stop worrying). These are great for pulled pork sandwiches too, for future reference.

When you put all of these ingredients in the crock pot, you might worry about not seeing enough liquid— do not add any! The meat and the apples will ooze with flavor and moisture and it will all work out just fine. My apologies for using “ooze” to describe cooking, but when I think about cooking low and slow, it’s totally an ooze, not a rush of flavor. Ooooooze.

This is a great recipe for any time of year, but especially great in the fall if you can get fresh, local apples and make your own apple butter. But there is no shame in buying it pre-made and ready to go... the outcome will be very similar!

Crock Pot Apple Butter Pork

Serves 8

2 lbs country ribs

2 gala apples, cut off the core and then into thick slices

1 sweet onion, cut into half and then into slices

1/2 cup chunky apple butter (chunky apple sauce will work too but the seasonings won’t be as intense)

4 sprigs of fresh thyme

Put meat in the bottom of crock pot, then layer the rest of the flavors. Cook on high 3-4 hours. Meat will be fork-tender and apples and onions should be soft, maybe a little mushy, but not disintegrating. It’s good if the leaves fall off the thyme- please do not ingest the twigs. Enjoy!

Crock Pot Spaghetti Squash

I was walking through the produce aisle this week and excited to see all of the fall produce slowly emerging as the weather starts to cool and the crock pot starts to heat. With squash of every size and variety piled up like presents under a tree, I started loading my cart

with butternut, acorn, and spaghetti squash. But the tipping tower of treasures presents a second issue— how do you prepare and cook these ridiculous looking vegetables? As with most foods that I don't want to fret about, I make them in my crock pot!

If you haven't ever experienced spaghetti squash, you are about to be delighted. I'm pretty sure it's the best diet food ever since it's low in calorie, gluten-free, dairy-free, paleo-friendly, vegan, vegetarian, nut-free, guilt-free, and packed with nutrients and flavor. But what intrigues me most about this cavern of goodness is the bizarre pasta like consistency of the meaty threads.

Here's the prep: waaaaaash the squaaaaaash. I love that you just sounded that out. Seriously though, this thing is going to sit in its entirety in your crock pot all day, let's not harbor fugitives like bugs or germs. Then take a sharp knife and stab the squash 5-6 times so that the heat and moisture can seep in and out to cook the flesh. Yes, it's a vegetable, but I think you can use words like meaty and flesh to describe never-living creatures, too.

Put the 4 lb squash and 2 cups of water in your crock pot for 6 hours on low. When it's done, the squash will deflate a bit

and be awkward to lift out. Watch out– it's HOT and full of juices. Let it cool a bit before you handle it. You will need to cut the spaghetti squash in half and scoop out the seeds inside (Throw the seeds away. This is not a pumpkin.)

Use a fork to shred the cooked pasta-like fresh from inside the squash. Once you have scraped it out, throw out the skins. Much like pasta, this is now a wonderful blank slate to begin preparing a delicious dish! Here are a couple ideas to choose from as far as fun flavors to add into your spaghetti squash:

- Add 1 tablespoon butter, 1 teaspoon minced garlic and 1/4 cup grated parmesan cheese.
- Add 1 cup alfredo sauce, 1 lb. browned ground beef and a can of stewed mushrooms. Oh look- beef stroganoff!
- Top it with [crock pot chicken cacciatore](#) for a low-fat, low-carb hearty dinner. (Yes, this requires two crock pots.)
- Add a scoop of [crock pot caramelized onions](#) and some cubed mozzarella cheese. French onion spaghetti squash!

Trying a new vegetable dish is no longer a challenge or a disappointing dinner. Enjoy your local seasonal vegetables in these new and exciting ways.
